- 1. Comment. The information does not indicate any change in the distribution of units of the IV Arty Corps in Rathenov.

25X1

2. Comment. Recently, a rather large number of 76.2-mm guns had repeatedly been reported from Rathenow. The shipment of the guns to the ordnance and equipment depot of the IV Arty Corps in the former Arado installation tends to indicate that the 76.2-mm guns of the corps were turned in, in connection with the reequipment with 85-mm AT guns. The guns may have been assembled in the Kraftfahrer Kaserne (5443).
